

Agnus Dei

Where do you go
when no one knows
and no one cares
about the troubles you've been
through

Shut up and smile
just for a while
and make your faces
when they turn and look away

Agnus Dei,
what has become of you
did they sell you in shops
around the world as a souvenir

What can you do
it's just like flu
just tell me why
I have to wear it off again

what can I say
is there a way
you use to do
when things are going down the
drain

Agnus Dei,
what has become of you
did they sell you in shops
around the world as a souvenir

I play the game
it's just the same
and so do you,
you know you got to keep it low

We sit and stare
in empty air
it's not like we
don't care about the time to
come

Agnus Dei,
what has become of you
did they sell you in shops
around the world as a souvenir

Agnus Dei,
what has become of you
did they sell you in shops
around the world as a souvenir
