

All over

When it's all over
we sit and we watch
empty eyes with
memory flash

When it's all over
we listen very hard
trying to go back
the memory serves

Tapes are running
digits are streaming
sounds and visions
flashing lights

When it's all over
we close our blue eyes
trying to be there
just one more time

When it's all over
the light is now gone
no war was won
it's out of reach

Tapes are running
digits are streaming
sounds and visions
flashing lights

We hang on
to a dream
purify
our view

Reengage
reemerge
rearrange
redesign

When it's all over
you will sing the song
just one more time
the memory flash

When it's all over
we play it again
loop without an end
the memory serves

Tapes are running
digits are streaming
sounds and visions
flashing lights

Tapes are running
digits are streaming
sounds and visions
flashing lights
