

Book of lies

I open the book with excitement
I want to read it all
I cannot wait to see what's going on
I want to know it all

The book of lies, lies before me
and tells me stories of the world
The book will serve me the
stars and the glamour I am looking for

I open the door to a new world
I have to take a peek
I cannot wait to see my loving friends
I have to know them all

The book of lies, lies before me
and tells me stories of the world
The book will serve me the
stars and the glamour I am looking for

I close the book with much sadness
I know it's hard to leave
I cannot wait to see my friends again
the world outside's a grief

The book of lies, lies before me
and tells me stories of the world
The book will serve me the
stars and the glamour I am looking for

The book of lies, lies before me
and tells me stories of the world
The book will lure me from
finding the answers I am looking for
