

Come with me

(five of swords)

The rain is pouring down tonight
the lights are flashing in the street
and people they are fleeing fast
to shelter from the rain and flash

We hide in shadows of the night
we're longing for the light of day
we're sweating blood from fear and fight
we think we have to stay all night

The victory is way ahead
the enemy is at the gate
and those who aren't fucking dead
are waiting just to meet their fate

Accept destruction and defeat
the weak and poor are easy meat
their swords are lying on the ground
and peace of mind just can't be found

Come with me my dear
I got loads of horrors for us to share
Come and have no fear
we will go to places for love and care

The victory seems pointless now
we got to let it go somehow
the conquest will be so unfair
we're sitting safely in our chair

Cowardice and cheating blind
I don't know what we got to find
Pride and glory, honor too
are lost forever in a goo

Come with me my dear
I got loads of horrors for us to share
Come and have no fear
we will go to places for love and care
