## a. Cosmic Prison

Lightning and thunder crash  
the vortex of heaven  
who knows what lies ahead  
I'm counting to seven

Cosmic prison  
we all got a date  
cosmic prison  
there is no escape

I got a ticket here  
it's only a one way  
now you get on the bus  
hope to get off someday

Cosmic prison  
we all got a date  
cosmic prison  
there is no escape

Cosmic prison  
we all got a date  
cosmic prison  
there is no escape

## b. Disturbing lights

Disturbing lights  
they light the night  
yet we don't know  
if it's just a show

Disturbing worlds  
they fear us all  
yet we don't know  
what's in store for us

The peace is gone  
we're not alone  
we got to run  
we got to forget

c. Parallel Worlds (instrumental)

Where is Heaven  
they say it's in the sky  
Where is Heaven  
you know we'll never die

d. Where is Heaven

I look up, I look down  
I'm feeling just like a clown  
I look left, I look right  
is it day or is it night

Where is Heaven  
they say it's in the sky  
Where is Heaven  
you know we'll never die

Where is Heaven  
they say it's in the sky  
Where is Heaven  
you know we'll never die

e. Meteor storm (instrumental)

I'm searching in deep space  
there is not a single trace  
behind the stars on flight  
the darkness, swallows the light

f. Light-years away

We're light-years away  
yet we have to stay  
looking through the bars  
looking at the stars

Where is Heaven  
they say it's in the sky  
Where is Heaven  
you know we'll never die

Light-years away  
light-years away  
light-years away  
we're light-years away

Behind eyes and locked doors  
I'm lying flat on the floor  
the cell room is glowing dark  
there is not a single spark

We're in the centre  
of our universe  
We're light-years away  
on a pale blue dot

Light-years away  
light-years away  
light-years away  
we're light-years away

Cosmic prison  
we all got a date  
cosmic prison  
there is no escape

Light-years away  
light-years away  
light-years away  
we're light-years away

j. Lonely planet

We sit on this  
lonely planet  
surrounded by  
beauty and terror

g. Black hole (instrumental)

yet it's a cage,  
golden prison  
we got to flee  
out in the space now

h. Wormhole (instrumental)

i. Cosmic Prison (reprise)

We will be staying here  
in some way or another  
we're a part of the show  
so why would you bother

Lonely planet  
still our home  
lonely planet  
we're alone

Cosmic prison  
we all got a date  
cosmic prison  
there is no escape

Lonely planet  
still our home  
lonely planet  
we're alone
