

## Creeping

- a. Creeping
- b. Get away
- c. Disconnected

### a. Creeping

Coming out of nowhere  
entering the show  
coming out of nowhere  
for the final blow

Creeping in and  
creeping out  
you can't win  
no matter how you shout

Sitting on a bench  
I'm waiting for the sun  
watching people pass  
I don't know where to run

Creeping in and  
creeping out  
you can't win  
no matter how you shout

### b. Get away

Allow me in now  
I need to rest a little  
I've been awake all night  
just praying for good times

- d. Misty streets
- e. Everything's possible (instrumental)
- f. Creeping (reprise)

I'm traveling in my mind  
I go to far out places  
hanging all day long  
I need to get away

### c. Disconnected

In the midnight haze  
running through the streets  
we're lost in the mist  
in the city's pulse

Misty streets ahead  
disconnected soul  
wander through the mist  
invisible to the world's bright light

Faces passing by  
whispers in the air  
shadows roam alone  
smelling of despair

Misty streets ahead  
disconnected soul  
wander through the mist  
invisible to the world's bright light

d. Misty streets

Listen to your heartbeat  
listen to the echoes  
the moon is above  
like a distant friend

Misty streets, always roaming  
around and around  
can't find peace, always turning  
around and around

Looking at the night shades  
looking at the pale world  
the steps is behind  
like a lethal foe

Misty streets, always roaming  
around and around  
can't find peace, always turning  
around and around

e. Everything's possible  
(instrumental)

f. Creeping (reprise)

Sun is setting slowly  
gleaming through the trees  
misty night fall calming  
dew is on the grass

Creeping in and  
creeping out  
you can't win  
no matter how you shout

Creeping in and  
creeping out  
you can't win  
no matter how you shout
