

Cruising

I want to see the sun
I want to have some fun
but now the sun is gone
it vanished in the clouds

Cruising around all day
I am looking out
for fun and such
cruising around all night
I am blinded by
the light and stars

I feel the rain come down
I'm running cross the lawn
the circus closing down
they left us all too soon

Cruising around all day
we are captured here
by loneliness
cruising around all night
we are captured here
by foolishness

Cruising around all day
I've been walking in
the desert land
cruising around all night
I'm gone, this is no fun at all

We hardly know
what we've been up to
we hardly know
where we're going to
the devil take the hindmost
you gotta fight to see the light

we hardly know anything at all
I only know I'm feeling so small
the devil take the hindmost
you gotta fight to see the light

They got too many tricks
I tried to learn the licks
it's just an endless fix
I must be moving on

Cruising around all day
I am looking out
for fun and such
cruising around all night
I am blinded by
the light and stars

Cruising around all day
I've been walking in
the desert land
cruising around all night
I'm gone, this is no fun at all
