

Emerald City

The green glasses
won't let you see
they're distorting images
the green glasses
won't let us be
rearranging you and me

Shiny, green and sinister
it's called the Emerald City
lion, witch and minister
we live in Emerald City

The yellow brick
road lies ahead
it will lead you to the town
I sneak around
with green spectacles
seeing things you won't believe

Shiny, green and sinister
it's called the Emerald City
lion, witch and minister
we live in Emerald City

The wicked witch
will haunt you down
the wizard is just a fraud
the magic trick's
deceiving you
you can never leave us now

Shiny, green and sinister
it's called the Emerald City
lion, witch and minister
we live in Emerald City

Shiny, green and sinister
it's called the Emerald City
lion, witch and minister
we live in Emerald City
