

## Feels like Christmas

When the days are getting shorter  
and the darkness closes in  
put a candle in your window sill  
and decorate with hearts and stars

but it only feels like Christmas  
when you look into my eyes  
yes it only feels like Christmas  
when you tell me little lies

When the tinsel stuff are shining  
and the heat gets to your head  
serve a spicy drink and some cookies  
and watch a movie on the screen

but it only feels like Christmas  
when you look into my eyes  
yes it only feels like Christmas  
when you tell me little lies

Sleighride!

When the snow is gently falling  
and you play again like children  
send a thought to those who cannot laugh  
and send it all with love and care

but it only feels like Christmas  
when you look into my eyes  
yes it only feels like Christmas  
when you tell me little lies

but it only feels like Christmas  
when you share it with the world  
yes it only feels like Christmas  
when the world can live in peace
