

Fire and Water

I don't know what you want
so I will wait and see
I hope that you need me too
just like I need you

I have seen what you do
I want to be a part
and all of the things you do
they seem to be me too

Walking through
fire and water blue
that's what I'm going through
Fire and water for you

Can't you see
What I am going through
Going through just for you
You are my fire and water

I don't know where it leads
and I don't want to know
I just want to see you smile
at me and feeling good

I will follow your steps
and walk behind you back
to support you in you fight
for all the things you are

Walking through
fire and water blue
that's what I'm going through
Fire and water for you

Can't you see
What I am going through
Going through just for you
You are my fire and water

Walking through
fire and water blue
that's what I'm going through
Fire and water for you

Can't you see
What I am going through
Going through just for you
You are my fire and water

Walking through
fire and water blue
that's what I'm going through
Fire and water for you

Can't you see
What I am going through
Going through just for you
You are my fire and water
