

Fly On

I'm stuck in a rut
I won't let it go
it makes me feel so safe
like a bird in a cage

Fly on
you little bird
leave this cage
only fear will keep you here

I don't think it's good
to do what you should
I want to break me free
and I won't pay the fee

Fly on
you little bird
leave this cage
only fear will keep you here

Fly on
you little bird
leave this cage
only fear will keep you here

Easy now
you're busy now
find your way
if you don't wanna stay

Please me now
know what to do
find the door
you won't be here no more

It doesn't matter now
the time's gone somehow
and what there's left to be
this I don't wanna see

Fly on
you little bird
leave this cage
only fear will keep you here

Fly on
you little bird
leave this cage
only fear will keep you here
