

Frozen Shadows

Frozen shadows on a sunny day
you might not see them haste away
but they can't go, they have to stay
caught forever in the motion

There's a dusty road that leads away
you know I want to leave someday
but I can't go, I have to stay
caught forever in your shadow

Mellempil - solo - mellempil - solo - mellempil

Frozen shadows on a sunny day
you might not see them haste away
but they can't go, they have to stay
caught forever in the motion

There's a dusty road that leads away
you know I want to leave someday
but I can't go, I have to stay
caught forever in your shadow
