### 1. March of the Giants

We're the giants of the Great Divide  
we make sure you won't stay alive  
we're the giants of the frost and snow  
we will teach you all, it's the way we say hello

We're scowling in the fog and mist  
we attack when you expect the least  
if you try to be a friend of ours  
we will slay you once and then time and time again

We are marching in the snow and sun  
we are chasing you on the run  
we're the giants of the Great Divide  
we will teach you all and you better run and hide

solo

## 2. A Shard Würm must die

A Shard Würm must die  
there's no reason to cry  
it will spawn again  
don't know where or when  
it will be rough  
it will be tough  
it will be so rough  
it will be tough

A Shard Würm must die  
there's no reason to cry  
she's a nasty beast  
just to say the least  
she hit so hard  
right from the start  
she hit you so hard  
right from the start

solo og kaos

A Shard Würm must die  
there's no reason to cry  
I will take the loot  
it will be so cool  
I will be fine  
victory shine  
I will be so fine  
victory shine

### 3. In the Kodiak caves

And I'm just a wizard,  
a long, long way from home  
and I, I am trying  
to make it in the Kodiak caves

and I, I have come to,  
to feel a little pity  
cause I, I am dreaming  
of Thurgadin the beautiful city

Wishing and hoping and waiting in line  
I ease my mind and I open my spell book cause  
killing the monsters is killing the time  
I could do magic but boredom has had me

So you, you are with me  
to ease me in my boredom  
and you, can't you see it,  
the lives we live are very much random

and I, I am sitting  
at the bottom of the caves  
and we, all around here,  
we're all some kinda, some kinda slaves

Wishing and hoping and waiting in line  
I ease my mind and I open my spell book cause  
killing the monsters is killing the time  
I could do magic but boredom has had me

5. The Gates of Thurgadin (instrumental)

6. Coldain funk

Behind these veils of waterfall  
a city lies, it's carved in ice  
it's like a maze, the name is Thurgadin  
here lives the Coldains, cool and nice

We live our lives in self-indulgence  
sheltered by these walls of ice  
away from giants and their violence  
but we sure could give these guys advice

We're having a party down  
in our little funky town  
we're having a party down  
in our little funky, funky, funky town

We're having a party down  
in our little funky town  
we're having a party down  
in our little funky, funky, funky town

tema, breaks m.v.

We're having a party down  
in our little funky town  
we're having a party down  
in our little funky, funky, funky town

We're having a party down  
in our little funky town  
we're having a party down  
in our little funky, funky, funky town
