a. Clone

I'm just a clone to you
It runs deep in my bones
I pick up what you say
repeat it all the time

I'm just a reflection
of your mind
to be kind
I'm not myself

I stand behind the door
when you have me on standby
I'm watching secretly
I'm updating myself

I'm just a reflection
of your mind
to be kind
I'm not myself

b. Sitting on a bench

I'm all on my own
I don't want to go
I'm feeding the birds
they eat what I got

- f. Mirror
- g. A glimpse (instrumental)
- h. Human
- i. Clone (reprise)

Sitting on a bench
watching all go by

Nightfall's coming soon
sun is almost gone
neon starts to glow
night shift's just a show

Sitting on a bench
watching all go by
looking at the sky
wish that I could fly

c. Distant memories

Distant memories
emerging from the past
people were happy
and love was meant to last

Distant images
they're coming closer now
we were lost and found
like an old TV-show

d. Mirage

Wandering in the heat
all along
sitting in the shade
of a tree

I'm looking at
the mirage of time
I wonder what
is real

Wandering in the cold
I'm not so bold
sun is shining low
in the snow

I'm looking at
the mirage of time
I wonder what
is real

e. Black vision (instrumental)

f. Mirror

I'm passing the mirror
I'm getting a glimpse of you
how could I forget it
there's thousands out there like me

Mirror on the wall
hear my silent call
don't forget me now
I am lost somehow

I crossed the mirror line
and now we're so intertwined
I want to reverse it
I'm feeling utterly disturbed

Mirror on the wall
hear my silent call
don't forget me now
I am lost somehow

g. A glimpse (instrumental)

h. Human

Living at the bottom
of the society
testing out my patience
and my sobriety

I didn't realize
what it meant to be human
I thought it was just
a playground to have fun in

Longing for no reason
after days gone by
anything is better
than to sit here and cry

I didn't realize
what it meant to be human
I thought it just was
a playground to have fun in

I didn't realize
what it meant to be human
I thought it just was
a playground to have fun in

i. Clone (reprise)

I tried my best to be
I just want you to see
I'm leaving you behind
we got to move ahead

I'm just a reflection
of your mind
to be kind
I'm not myself

I'm just a reflection
of your mind
to be kind
I'm not myself
