a) Hunted animal

You have that look in your eyes
like a hunted animal
hurt, but not defeated

Hunted animal
you can't keep running away
hunted animal
you got to fight back someday

You have no energy, You're
like a worn out battery
flat, but not depleted

Hunted animal
you can't keep running away
hunted animal
you got to fight back someday

b) In the open

Out in the open
I can see, I can run
out in the open
I can sense the dangers

Out in the open
I can take in the air
out in the open
I can sense the strangers

c) On the run

I'm on the run
searching for a place
I won't get old
if I keep this pace

You play charade
right in front of me
it's a mock parade
you know I can see

we kiss and hug
and we hate it well
we tear and tug
you know I can tell

we can never show
we will have to hide
when we're on the run
we will have to fly

d) In the city

The city lights are gleaming
the city blood is streaming
I connect to your mind
misery is what I'll find

The city streets lies naked
we both know we have faked it
I eject, you reject
disconnection is a fact

e) On the run (instrumental reprise)

f) Survival of the fittest

They tell me to adapt
they tell me to change
forget just who you are
forget about your self

Survival of the fittest
don't reply
survival of the fittest
do or die

You don't need to adapt
You don't need to change
I love you just the samme
there's no one to blame

Survival of the fittest
don't reply
survival of the fittest
do or die

Survival of the fittest
don't reply
survival of the fittest
do or die

Survival of the fittest
don't reply
survival of the fittest
do or die

Survival of the fittest
don't reply
survival of the fittest
do or die

g) Recharging (instrumental)

h) Hunted animal (reprise)

You have a look in your eyes
like a hunted animal
hurt, but not defeated

Hunted animal
you can't keep running away
hunted animal
you got to fight back someday

i) When I close my eyes

When I close my eyes
I will still be hunted
when I stop my thoughts
the darkness will prevail

Where is the light
where are the pastures
where are the woods
where is the sky

As I lay me down
I can find no peace inside
why do I need to hide
and why do I subside

Feeling so ill
feeling so nauseous
I close my eyes
I fade away
