a. No love

b. Fade away

I always thought you were clever
and always thought now or never
there's no second time for
trying
there's no love just to be lying

There's nothing more to say
I think I'll go away
I'm sending you a smile
it's gonna be a while

There's no love to be found
cause you don't come around
we're playing mock parade
you think you act sublime

Fade away
we'll meet someday
fade away
that's all I say

You never fail to surprise me
I got a feeling you despise me
It's starting to fall down and
fade
just when I think I got it made

I'll go easy and soft
and no slamming the door
I'm sending you my thoughts
and a prayer for noughts

There's no love to be found
cause you don't come around
we're playing mock parade
you think you act sublime

Fade away
we'll meet someday
fade away
that's all I say

c. Journey within (instrumental)

d. Missing out

They're lightning up the sky
we know the reason why
I'm waiting outside the door
I stumble on the floor

It's hard to decline
you think you'll be fine
don't dare say it loud
you're really missing out

I keep myself awake
I know what is at stake
I'm dreaming on the ceiling
I know I am stealing

It's hard to decline
you think you'll be fine
don't dare say it loud
you're really missing out

e. Was it worth it

I'll wait in the rain
sleep on your doorstep
I hope to see you
smiling in the sun

Was it worth it
lying awake all night

was it worth it
engaging in a fight

I'm sitting like a dog
waiting for a treat
I hope I will get it
I'm your little pet

Was it worth it
lying awake all night
was it worth it
engaging in a fight

f. No love (reprise)

I always look in the mirror
to see if I find an error
it is dying without a sound
when there is no love to be found

There's no love to be found
cause you don't come around
we're playing mock parade
you think you act sublime

There's no love to be found
cause you don't come around
we're playing mock parade
you think you act sublime

g. Continue (instrumental)
