

Look at me now

You went away
I had to cry today
I'm all alone
my mood is dropping like a stone

Day after day
my life fades away
hurt after hurt
we're making love in the dirt

You said goodbye
and I don't know why
Got to move on
I got to have some fucking fun

Life will go on
I got to have some fun
bite through my shame
I got to trust your hollow name

Look at me now
I play happy face again
I'm moving on
I got no time to waste, my friend

Look at me now
I play happy face again
I'm moving on
I got no time to waste, my friend

I played too nice
you've put me on ice
I know it's your life
but I can't help thinking twice

Look at me now
I play happy face again
I'm moving on
I got no time to waste, my friend

Look at me now
and tell me what you see
go happy man
and show me your happy plan

Look at me now
I play happy face again
I'm moving on
I got no time to waste, my friend
