

## Looking out my window

As I'm looking out my window in the morning  
The world rushes by and I try not to get flushed away  
As I'm looking out my window in the daytime  
The day turned to night and the stars they come out shining bright

As I'm looking out my window in the evening  
all that I see is the beauty lies lost on the ground  
As I'm looking out my window every day now  
The days turn to years and the fears they just won't go away

What do I see when I close my eyes and look inside?  
I'm looking into the void of lost and senseless time

As I'm looking out my window in the sunshine  
I close my eyes and I stare at the stars of the void  
As I'm looking out my window in the night time  
My eyes are wide open - I dream about conquering the sky

What do I see when I close my eyes and look inside?  
I'm looking into the void of lost and senseless time

Looking out my window in the evening  
All I see is the beauty of the stars  
looking out my window every day now  
All I see is the days passing by

What do I see when I close my eyes and look inside?  
I'm looking into the void of lost and senseless time

What do I see when I close my eyes and look inside?  
I'm looking into the void of lost and senseless time
