

Main actors

Once it was the main attraction
once it was the spotlights darling
once it was a shooting star and
it could do no wrong

I'm sitting and watching now
the shadows and light are
the main actors here

Tucked away in season storage
like a worn out carousel horse
dust and dreams the only audience
they can do no harm

I'm sitting and watching now
the shadows and light are
the main actors here

I'm sitting and listening now
the silence and noise are
the main actors here

Once it was the main distraction
once it sure could ruin your faction
now it's just a leftover and
it can do no harm

I'm sitting and watching now
the shadows and light are
the main actors here

I'm sitting and listening now
the silence and noise are
the main actors here
