

## Messages

I'm shouting against the wind  
my words are carried away  
I want my messages out  
nobody hears me shout

How can you ignore me still  
you just keep looking away  
you don't care about a thing  
and the songs I will sing

I'm sending messages from a black hole  
nothing escapes me anyway  
I'm sending messages from a black hole  
my words are doomed to stay with me

There's messages in the sound  
messages flying around  
there's no ears to be found  
no eyes to see the words

I'm sending messages from a black hole  
nothing escapes me anyway  
I'm sending messages from a black hole  
my words are doomed to stay with me

There's messages on the wall  
but you don't see them at all  
your ears are truly sealed  
your mind is truly blind

I'm sending messages from a black hole  
nothing escapes me anyway  
I'm sending messages from a black hole  
my words are doomed to stay with me
