

Night People

- a. Night People
- b. Sleepy Lanterns (instrumental)
- c. Running out of time
- d. Here it comes
- e. Mistake

- f. Failsafe (instrumental)
- g. You broke my Heart
- h. Living for the moment
- i. Night People (reprise)

a. Night People

They only come out at night
they stand there watching the door
so what are they waiting for
smoking and drinking their beer

Night people
always on a hunt
night people
always on the run

They walk in the park at night
passing the sleepy lanterns
watching out for the strangers
searching for their hidden gems

Night people
always on a hunt
night people
always on the run

The music's playing loud tonight
I light another cigarette
I hide my eyes in the smoke
my heart and soul's torn apart

Night people
always on a hunt
night people
always on the run

b. Sleepy Lanterns (instrumental)

c. Running out of time

The darkness is my friend
at least that's what I hoped

running in the night
running out of sight
running up and down
running out of time

I play it soft and nice
at least that's what I tried

running in the night
running out of sight
running up and down
running out of time

d. Here it comes

I can finally relax
sitting here on a bench
starring at the milky way
It looks so close tonight

Here it comes creeping in
it just won't go away
you see me giving in
I don't know what to say

I am followed by the moon
I am not coming home
floating in the milky way
my feet won't touch the ground

Here it comes creeping in
it just won't go away
you see me giving in
I don't know what to say

e. Mistake

Mistake, it must be a mistake
failsafe, I thought it was
failsafe
mistake, it must be a mistake
failsafe, I thought it was
failsafe

mistake, mistake, failsafe,
mistake

mistake, mistake, failsafe,
mistake

mistake, it must be a mistake
failsafe, I thought it was
failsafe

f. Failsafe (instrumental)

g. You broke my Heart

I've been waiting to
catch a glimpse of you
though you don't know me
I'm still in love with you

You broke my heart
you left me standing here
you broke my heart
you didn't look my way

You sit in the back
of your limousine
the windows are black
and slowly rolling up

You broke my heart
you left me standing here
you broke my heart
you didn't look my way

h. Living for the moment

I lead your body
we're dancing in the dark
we're swaying away
together in a waltz

I'm living for the moment
where we're a part of
a tableau of light
a tableau in the night

We're always longing
like statues in the rain
birds don't seem to care
They just sit there and stare

I'm living for the moment
where we're a part of
a tableau of light
a tableau in the night

i. Night People (reprise)

We walk home, vanish away
glancing through the morning fog
the sunshine's breaking the ice
a cup of tea would be nice

Night people
always on a hunt
night people
always on the run

Night people
always on a hunt
night people
always on the run
