

## On and on

I was so lonely  
when I saw you last night  
staring at you only  
and I knew that it felt so right  
how could I ever go near to you  
how could I even try to talk to you

You had the courage  
when you gave me the eye  
I began to worry  
and I thought that I should die  
when you came over here by my side  
asking me if I wanna go for a ride

Solo (Synth.)

We stick together  
in the good and bad times  
never mind the weather  
above the clouds the sun will shine  
as for all as for you and me too  
just you keep walking along in my shoes
