One day

I see you on the screen
I'm watching
I reach out to your hand
I'm touching

You're always on my mind
to me now
we're walking on the beach
together

One day you will be real
one day you're gonna feel
one day out of my mind
one day one of a kind

We're walking in the shades
of the trees
we're listening to the buzz
and the bees

I know you're gonna stay
forever
I know you're not getting
old like me

One day you will be real
one day you're gonna feel
one day out of my mind
one day one of a kind

we'll live long
and stay young
we'll jump out
running about

You're looking at me from
the draw board
the program gave you new
skin and heart

I'm gonna shape you good
be so hot
once you're in the world you'll
never leave

One day you will be real
one day you're gonna feel
one day out of my mind
one day one of a kind

One day you will be real
one day you're gonna feel
one day out of my mind
one day one of a kind
