

Path of Dreams

Glancing through the rain
never mind the pain
it's so dark here
it's so lonely

Meet you in the hall
candlelights and all
shadows on the wall
as we proceed to go

Walking the path of dreams
follow the stars that gleams
looking at the windows
looking at the light

Playing silly games
calling out your name
rising from the flames
we'll ascend to the stars

Walking though the town
I am on my own
I can see through
flying pictures

Flying in a dream
you would cry and scream
feel the air here
it's so windy

Walking the path of dreams
follow the stars that gleams
looking at the windows
looking at the light

Walking the path of dreams
follow the stars that gleams
looking at the windows
looking at the light

Walking the path of dreams
follow the stars that gleams
looking at the windows
looking at the light
