a. Rebel Angel

You look at me as if  
I'm some kinda angel  
I once was you favorite  
but now I have fallen

Rebel Angel, that's what  
you think I am  
I'm leading you in perdition

You look at me as if  
I'm some kinda evil  
I lived my life in your presence  
but now I'm far away

Rebel Angel, that's what  
you think I am  
I'm leading you in perdition

Rebel Angel, that's what  
I am to you  
I'm leading you in perdition

b. Follow the money

Follow the money  
follow me honey  
we're gonna slide  
down in debauchery

Follow the streaming  
in the green meadow  
we're gonna ride  
in the rapid current

follow the air flow  
through an open window  
we're gonna fly  
up to the skies tonight

Follow the money  
follow me honey  
we're gonna slide  
down in debauchery

c. Invisible Prison (instrumental)

d. Kal-el

Kal-el rise up  
Kal-el to the sky  
Kal-el save us now  
Kal-el from our selves

Kal-el rise up  
Kal-el fly on by  
Kal-el save us now  
Kal-el from the dark

e. Abaddon (instrumental)

f. Nephilim

Living in you shadow  
you are the ruler of my world  
living by your grace  
I will worship day and night

Nephilim, oh Nephilim  
abomination true  
Nephilim, oh Nephilim  
I will abolish you

Nephilim, oh Nephilim  
abomination true  
Nephilim, oh Nephilim  
I will abolish you

Working, sweating sheer blood  
your whip shall be my comfort  
trying to go figure  
how to please and worship you

Nephilim, oh Nephilim  
abomination true  
Nephilim, oh Nephilim  
I will abolish you

Nephilim, oh Nephilim  
abomination true  
Nephilim, oh Nephilim  
I will abolish you

g. Separate ways

I once lived in your presence  
but we didn't see eye to eye  
I once lived by your ruling  
now I chose another way

Separate ways  
I had to follow my own path  
separate ways  
I wanted to be free

We're worlds apart, heaven and hell  
I feel the sprit's gone away  
the nights of loneliness and grief  
I am seeking a sweet relief

Separate ways  
I had to follow my own path  
separate ways  
I wanted to be free

#### h. Demigod

I think you must be a Demigod  
the way you rule my life  
wake up from your eternal dream  
the world's not what it may seem

Demigod - go spread your wings  
Demigod - you turn the things

Restore my dreams from the big  
slumber  
we dance among the stars  
wake up to the eternal light  
you're getting really out of sight

Demigod - go spread your wings  
Demigod - you turn the things  
Demigod - you ride the beams  
Demigod - you're in my dreams

#### i. Second chance

We all need that second chance  
we all need that extra try  
it don't make no difference  
if it's the truth or just a lie

We all need that distraction  
we all need a little action  
to feel a little weightless  
to feel the satisfaction

#### j. Rebel Angel (reprise)

You look at me no more  
I'm just an old man now  
I've lost and been forgotten  
fallen or not fallen

Rebel Angel, that's what  
you think I am  
I'm leading you in perdition

Rebel Angel, that's what  
I am to you  
I'm leading you in perdition
