

## Rise in the light

I want to get out of here  
forget I ever saw your face  
you once were oh so sincere  
now let there be nothing to trace

Rise in the light  
you know I'm gonna follow  
I'll go where ever it may go  
shine in the night  
and lead me out of this hollow  
I know you know the way to go

You think I must be insane  
that's what I fear I will become  
I keep repeating your name  
erase my memory of you

Rise in the light  
you know I'm gonna follow  
I'll go where ever it may go  
shine in the night  
and lead me out of this hollow  
I know you know the way to go

There will be no long goodbyes  
and nothing's gonna hold me back  
and no sentimental lies  
to get me right back on the track

Rise in the light  
you know I'm gonna follow  
I'll go where ever it may go  
shine in the night  
and lead me out of this hollow  
I know you know the way to go

Rise in the light  
you know I'm gonna follow  
I'll go where ever it may go  
shine in the night  
and lead me out of this hollow  
I know you know the way to go
