

Serve Yourself

There is something in the air tonight
this is something that I feel, alright
you might not believe in what you see
you might not believe it is for real

Serve yourself
you're standing next to it
serve yourself
the table lies bleeding
serve yourself
just take it while you can
serve yourself
we all need some feeding

you've been waiting such a long, long time
you've been waiting for the answer, right
it might not be what you thought at first
but I know it sure will quench your thirst

Serve yourself
you're standing next to it
serve yourself
the table lies bleeding
serve yourself
just take it while you can
serve yourself
we all need some feeding

I've been watching you for quite some time
and I know that you've been stuck in line
come let's take the plunge and let it out
come on show it, let there be no doubt

Serve yourself
you're standing next to it
serve yourself
the table lies bleeding
serve yourself
just take it while you can
serve yourself
we all need some feeding
