

## The four elements

- a) Rage of the elements
- b) Earth
- c) Water

- d) Air
- e) Fire
- f) Rage of the elements (reprise)

- a) Rage of the elements

Feel the rage of the elements  
they're tearing your soul apart  
feel the rage of the elements  
they're waiting to break your heart

walking in the mountains  
I nearly lost my way to you  
walking on the water  
I nearly lost my life for you  
walking in the thin air  
I nearly lost my breath again  
Walking through the fire  
I nearly burned my feet in vain

Feel the rage of the elements  
they're blowing your stupid mind  
feel the rage of the elements  
they're burning such of your kind

walking in the mountains  
I nearly lost my way to you  
walking on the water  
I nearly lost my life for you  
walking in the thin air  
I nearly lost my breath again  
Walking through the fire  
I nearly burned my feet in vain

## b) Earth

I walk upon the solid earth  
I like to feel the ground beneath  
how can I else connect to you  
when I feel and touch the soil

I walk the mountains high and low  
I dream about the valleys green  
how can I else adjust to you  
when I feel and touch the grass

## c) Water

Water washing  
Water flushing  
water rushing  
water flowing

water dripping  
water cooling  
water beaming  
water streaming

water running as deep  
as in the ocean  
water running it's just  
like an emotion

can you feel it running

water running as deep  
as in the ocean  
water running it's just  
like an emotion

can you feel it running

d) Air

Air - I can breathe

Air - I can fly

Air - I can see

you from the sky

Thoughts - sharp as knife

thoughts - I can separate you

here - in my mind

you - won't escape my thoughts, no

Breathe in the air

think and I'll be there

fly in the sky

dream and I'll be with you

Breathe in the air

think and I'll be there

fly in the sky

dream and I'll be with you

Breathe in the air

think and I'll be there

fly in the sky

dream and I'll be with you

Breathe in the air

think and I'll be there

fly in the sky

dream and I'll be with you

## e) Fire

Fires are burning bright  
eating with all their might  
raging desires fight  
I want, I need, I crave you now

Fires are burning  
and we are yearning

quench my thirst  
I came first  
my desires  
cannot wait

Fires are burning bright  
eating everything tonight  
passion is raging on  
I want, I need, I crave you now

Fires are burning  
and we are yearning

quench my thirst  
I came first  
my desires  
cannot wait

Fires are burning bright  
eating with all their might  
raging desires fight  
I want, I need, I crave you now

Fires are burning bright  
eating everything tonight  
passion is raging on  
I want, I need, I crave you now

f) Rage of the elements  
(reprise)

Feel the rage of the elements  
they're tearing your soul apart  
feel the rage of the elements  
they're waiting to break your heart

walking in the mountains  
I nearly lost my way to you  
walking on the water  
I nearly lost my life for you  
walking in the thin air  
I nearly lost my breath again  
Walking through the fire  
I nearly burned my feet in vain
