a. Time

Slipping like sand  
through your fingers  
moving like  
shadows on a wall  
things that you once  
thought would linger  
now you can't  
see them at all

Time - slipping away  
you want to keep it safe  
time - dragging away  
it works in mysterious ways

b. Turn back time (instrumental)

c. Void

Time - slipping away  
you want to keep it safe  
time - dragging away  
it works in mysterious ways

Sitting and staring  
nothing's perceiving  
waiting and glaring  
lost my believing

Shining like stars  
on the night sky  
traveling through  
space so neat and slim  
angels tread softly  
and careful  
watch the light  
grow pale and dim

Void space,  
void time  
nothing is  
happening here

Tossing and turning  
my mind is set on hold  
vengeance is burning  
lost both my faith and will

Void space,  
void time  
nothing is  
happening here

Void space,  
void time  
to much is  
happening here

d. Someday

You hurry out of the door  
you need to catch a train  
I'm standing here on the floor  
can't you see I'm in pain

Someday they say  
we will find a way  
to meet again  
you are still my friend

Now you need to go out again  
to spend some time alone  
how can you still be my friend  
and not some silly clone

Someday they say  
we will find a way  
to meet again  
you are still my friend

Someday they say  
we will find a way  
to meet again  
you are still my friend

We used up all of our words  
got nothing left to say  
I'll go out to different worlds  
I go there just to play

e. Waiting room

The air is standing still  
the room is humming loud  
I'm sitting in the window sill  
my thoughts are in the clouds

Waiting room  
empty eyes  
gloom and panic  
feel how you fly

See the skyline  
don't go near  
watch the aircraft  
smother the fear

The doorbell sounds again  
I try to hold my breath  
can only feel the pain  
the fear of sudden death

Waiting room  
empty eyes  
gloom and panic  
feel how you fly

See the skyline  
don't go near  
watch the aircraft  
smother the fear

f. Traveling

I want to go back  
to where I once was safe  
the space here is black  
I feel I'm in a maze

Traveling in time  
try to hold the line  
traveling in time  
I know I should be fine

The light rushes in  
you know that I am gone  
where vertigo spin  
and all is said and done

Traveling in time  
try to hold the line  
traveling in time  
I know I should be fine

g. Broken watch

My watch is broken  
and so is my heart  
the words been spoken  
they fly like a dart

Broken watch  
I lost the touch  
broken watch  
the moon don't move

Broken watch  
it's all too much  
broken watch  
my mood is blue

My head is aching  
I think it's a crime  
my body's shaking  
and gone is my time

Broken watch  
I lost the touch  
broken watch  
the moon don't move

Broken watch  
it's all too much  
broken watch  
my mood is blue

Broken watch  
I lost the touch  
broken watch  
the moon don't move

Broken watch  
it's all too much  
broken watch  
my mood is blue

#### h. Time (reprise)

Always behind  
we are working  
without stop,  
will we reach the end  
seeing yourself  
disarmed with medals  
still you wonder  
who the hell you fought

Time - slipping away  
you want to keep it safe  
time - dragging away  
it works in mysterious ways

Time - slipping away  
you want to keep it safe  
time - dragging away  
it works in mysterious ways

#### i. Eternity (instrumental)
