

## Watching You

Staring out, staring in  
jump and shout, where've you been  
I've been here and I've been there  
in between and anywhere

Watching you, watching me  
look away now and then  
Follow you, follow me  
wonder what it could be

Hide and seek, peak a boo  
take a peep, I'm watching too  
I can see, but you just stare  
I will be, but you don't care

Watching you, watching me  
look away now and then  
Follow you follow me  
wonder what it could be

Watching you, watching me  
look away now and then  
Follow you follow me  
wonder what it could be

Watching you, watching me  
look away now and then  
Follow you follow me  
wonder what it could be
