

What Planet

They stare at me like
I'm some kinda alien
no matter what I do
they expect I'm failing

So leave me alone for
I can't do your singing
I can't tell you when
the bells will be ringing

How come you're shining so bright
how come you're glowing in the night
why are you acting so strange
what planet do you come from?

How come you're shining so bright
how come you're glowing in the night
why are you acting so strange
what planet do you come from?

They ask what I think
tomorrow is bringing
for every tree there's
a songbird who's singing

How come you're shining so bright
how come you're glowing in the night
why are you acting so strange
what planet do you come from?

How come you're shining so bright
how come you're glowing in the night
why are you acting so strange
what planet do you come from?
