

## Christmas song

I can't get it out of my head  
from morning till I go to bed  
like ringing a bell in my ear  
It's a sweet little melody

It's another Christmas song  
I am humming all day long  
just another Christmas song  
hope you all will sing along

I'm singing it out loud to you  
so you can learn to sing it too  
I don't think it so hard to get  
we can all sing together now

It's another Christmas song  
I am humming all day long  
just another Christmas song  
hope you all will sing along

I'll sing it in the Christmas time  
and even after it is gone  
I'll sing it when the summer's here  
come and join all together now

It's another Christmas song  
I am humming all day long  
just another Christmas song  
hope you all will sing along

It's another Christmas song  
I am humming all day long  
just another Christmas song  
hope you all will sing along
