- d. Restless (instrumental)
- e. Dark times
- f. Going home
- g. Crystals (instrumental)
- h. Faith
- i. Light worker
- j. You're the sun (reprise)
- k. Fading lights (instrumental)

a. You're the sun

Relentlessly seeking in vain  
relief from the times spent in pain  
you doubt that you've got all the power  
to strike it down by the hour

You're the sun in your universe  
you're conducting the world that you're in

We only know how to survive  
and we've forgot just how to live  
we're lost in shadows of the past  
and time is just an illusion

You're the sun in your universe  
you're conducting the world that you're in

b. Time and space (instrumental)

c. There's no way

There's no way  
out of this place here  
we just have  
to go forward now

I lost my connection here  
I can't find the way back home  
I'm searching for something again  
the feeling won't ever go away

There's no way  
I can relate to here  
it's all new  
I am filled with fear

Looking back won't help at all  
I can't find the way back home  
I feel separated again  
from the carefree ocean of love

d. Restless (instrumental)

## e. Dark times

We're riding through dark times  
there's just a little light ahead  
we're going through the lines  
arriving to a new reality

Dark times, we feel so lonely  
dark times, we get used to it  
dark times, the eternal sleep  
dark times, awaking slowly

We want you to like us  
can't you say that we're just ok  
we want you to feel us  
compassion would be much appreciated

Dark times, we feel so lonely  
dark times, we get used to it  
dark times, the eternal sleep  
dark times, awaking slowly

## f. Going home

The crystals are ringing  
and I am melting away  
I'm floating up and down  
and adapting to the light

I'm going home  
they all come to greet me  
I'm going home  
a new world comes to life

Going home, going home

They're calling out my name  
I think the energy's cool  
I'm feeling my feet now  
and I step into the light

I'm going home  
they all come to greet me  
I'm going home  
a new world comes to life

Going home, going home

## g. Crystals (instrumental)

## h. Faith

Faith, we gotta have some faith  
the truth, who cares about the truth  
Amazing Grace was always a hit  
no false religions and all that shit

Faith, I'm on my knees  
faith, we're true believers

Faith, you find it deep inside  
the truth was always to debate  
Amazing Grace was always a hit  
no false religions and all that shit

Faith, I'm on my knees  
faith, we're true believers

## i. Light worker

Mental fight we work with our thoughts  
letting go of fear and discomfort  
we're playing with power  
and energy shower

Light worker  
soul warrior  
light worker  
soul seeker

Mental light, we seek consciousness  
letting go of power and control  
we're playing with magic  
and magnetic fields

Light worker  
soul warrior  
light worker  
soul seeker

j. You're the sun (reprise)

You're lost as a child in the darkness  
the way back home is not an option  
the show must go on and you know it  
you're singing and playing again

You're the sun in your universe  
you're conducting the world that you're in  
how you think and how you are acting  
and deep inside you must know that you're fine

k. Fading lights (instrumental)
