

Afternoon

I don't like it
I don't like it here
feeling drowsy
I'm fading away

Silence in my mind
listen to the music kind
looking at the sky
see the colors flying by

Spend the afternoon right here
you don't know how long it'll last
sunshine through the curtains
lifts up all your burdens

Lasting longer
like eternity
flying out now
cross the boundary

See the treetops
see the treetops sway
birds are singing
sun is shining through

Spend the afternoon right here
you don't know how long it'll last
sunshine through the curtains
lifts up all your burdens

Spend the afternoon right here
you don't know how long it'll last
sunshine through the curtains
lifts up all your burdens

Spend the afternoon right here
you don't know how long it'll last
sunshine through the curtains
lifts up all your burdens

Rest in peace they chant
I don't hope it'll be the truth
safe travels to you
look around and take it in
