

Autumn Road

As I'm heading down autumn road
the leaves are falling
down to ground without a sound
the sun is shining low

Snowflakes fall and grey out my hair
they seem to stay and
chilly winds will cool my skin
and wrinkle up my face

Past-time heroes join company
with fallen angels
try to make it back into
the light - into the fight

Who was right and who was so wrong
it doesn't really
matter anymore as long
as life's a sading bore

Autumn Road - it's a one way street
leads away from the summer heat
Autumn Road - in the pouring rain
washes all your dreams down the
drain

Once I thought I knew you so well,
the smile upon your
face, the twinkle in your eyes
have all gone away

Scars that run so deep in the soul
they stir and squirm and
will not mend, no hopes around
the bend - it's just the end

Autumn Road - it's a one way street
leads away from the summer heat
Autumn Road - in the pouring rain
washes all your dreams down the
drain

B-stk.

Autumn Road - it's a one way street
leads away from the summer heat
Autumn Road - in the pouring rain
washes all your dreams down the
drain
