

# Brighter Day

I don't know where I'm  
heading to  
I don't know what the  
future holds for me

I try to see through  
the hazy view  
I don't think I can  
keep the world from turning

Searching for a brighter day  
searching for a better way  
I was always left behind  
I have always been going blind

I want to feel real  
on the ground  
I want to breathe  
the air everywhere

I want to yell, hell  
smell the grass  
I want to taste  
the water cold and fresh

Searching for a brighter day  
searching for a better way  
I was always left behind  
I have always been going blind

I want to see you  
in the sky  
just like a guardian  
angel heaven sent

I want to be you  
I'm on the fly  
I'm diving down in  
to the city lights

Searching for a brighter day  
searching for a better way  
I was always left behind  
I have always been going blind

Searching for a brighter day  
searching for a better way  
I was always left behind  
I have always been going blind

We're all searching  
for a brighter day  
We're all searching  
for a better way

We're all searching  
for a place to stay  
We're all searching  
for the words to say
