a. Beneath the surface

We skate away on the surface
and I try to tell
by the look in your eyes
what you hide in your mind

Beneath the surface
we play the game
beneath the surface
we hide our shame

We're basking in the sunshine
and I try to see
to the end of the world
to the vanishing point

Beneath the surface
we play the game
beneath the surface
we hide our shame

Beneath the surface
we're not the same
beneath the surface
we burst in flames

b. Fever waves (instrumental)

c. Strange Creatures

Break the surface
going under
sinking deeper
darkness closing

Strange creatures
strange features
light in the darkness
feeling the sharpness

Wiggly wobbly
jelly gobbly
I am downing
feels like drowning

Strange creatures
strange features
light in the darkness
feeling the sharpness

d. Whisper a prayer

I whisper a prayer
I know it's barely heard
I'm going through layers
it keeps me stay alert

Please let me out
please let me go
please let me see
please let me be

I whisper a prayer
It's only in my mind
I'm going through changes
I never thought I would

Please let me out
please let me go
please let me see
please let me be

e. Swirling clouds (instrumental)

f. Going down

Try to keep my head up
though I'm going down
try to keep my head up
now I've been around

Hold on to what you got
now secure yourselves
We are going down
step by step

I am still so curious
and I wanna know
what lies beneath the surface
I will take a peep

Hold on to what you got
now secure yourselves
We are going down
step by step

We are going down
step by step
like a sinking ship
inch by inch

g. Keep up

I'm in the middle of a desert
swimming in a glass of water
I'm in the middle of a nightmare
hoping someone will wake me up

Fighting to keep myself up
never stop until you drop
I'm gonna stay forever
until the twelfth of never

I'm in the middle of the
darkness
walking around with my eyes
closed
I'm in the middle of the
spotlight
hoping someone will shade my
eyes

Fighting to keep myself up
never stop until you drop
I'm gonna stay forever
until the twelfth of never

Fighting to keep myself up
never stop until you drop
I'm gonna stay forever
until the twelfth of never

h. Beneath the surface (reprise)

The surface's almost gone now
and I try to see
to the bottom where the sun don't
shine a light no more

Beneath the surface
we play the game
beneath the surface
we hide our shame

Beneath the surface
we're not the same
beneath the surface
we burst in flames

i. Above (instrumental)
