

## Camouflage

Pink and white  
leather and lace  
and a stripe  
across your face

Camouflage  
we hide ourselves  
we play the game  
like no one else

Camouflage  
we can't be seen  
we got courage  
we play it mean

Faith and trust  
we have the guts  
don't get lost  
we turn to dust

Camouflage  
we hide ourselves  
we play the game  
like no one else

Camouflage  
we can't be seen  
we got courage  
we play it mean

We hide in the city  
we lurk in the shadows  
we're blinded by neon  
we think it's the sunshine

I just can't tell your  
surface from the wall  
I just can't tell your  
heaven from my hell

Preachers preaching liquid gold  
who will buy a worn out soul  
Dreaming, scheming all night long  
singing sad words in a song

Wear your mask  
wear it with pride  
it's a task  
we all subside

Camouflage  
we hide ourselves  
we play the game  
like no one else

Camouflage  
we can't be seen  
we got courage  
we play it mean
