

Carousel

I wake up to the sound of music
playing in my head
I dance around in the neighborhood
like I couldn't care

My world is spinning like a carousel
just come and join me if you want a ride
the music's playing as we ride along
It's going faster like I knew it would

I wait outside your doorstep with my
insufficient plans
I hope you want to join me and to
make our trip complete

My world is spinning like a carousel
just come and join me if you want a ride
the music's playing as we ride along
It's going faster like I knew it would

We ride along towards the sunset
in a distant land
The goal is empty, light is dim and
the stars shine above

My world is spinning like a carousel
just come and join me if you want a ride
the music's playing as we ride along
It's going faster like I knew it would

The carousel is hurling
and I am twirling
it got me so busy
it got me so dizzy

The carousel is burning
the music is playing
I feel I am turning
I feel I am yearning
