

Dancing in the Spotlight

I'm dancing in the spotlight
I'm dancing on my own
I thought it'd be a hot night
but you left me all alone

You played the music hard and loud
you just enjoyed yourself
I was not just fooling around
I was reaching out for help

We were one with the sound
I believed we were so good
but you spin me around and round
all you have to do is tap your foot

I'm dancing in the spotlight
I'm dancing on my own
I don't give a damn tonight
I don't care; the bird has flown

We were one with the sound
I believed we were so good
but you spin me around and round
all you have to do is tap your foot

I'm dancing in the spotlight
I'm dancing on my own
I don't give a damn tonight
I don't care; the bird has flown

We were one with the sound
I believed we were so good
but you spin me around and round
all you have to do is tap your foot

We were one with the sound
I believed we were so good
but you spin me around and round
all you have to do is tap your foot
