

Dream eternally

Out into the night
where the shadows are dancing away
You can hide, you can play,
you can do it your own special way

I scream a thousand words
none of them can be heard
I dream a thousand dreams
all of them will stay alert

Sunlight through the trees
and the wind is gently sweeping my mind
I can see, I can be
I can be whatever I want to be

I scream a thousand words
none of them can be heard
I dream a thousand dreams
all of them will stay alert

Dream eternally
playing hide and seek
in the ways of your mind
look at your self - take a peep
down the deep

I can tag the clouds
I can soar way up high in the sky
I can fly, I can dive
I can go wherever I want to fly

I scream a thousand words
none of them can be heard
I dream a thousand dreams
all of them will stay alert

I see a thousand worlds
none of them can be seen
I hear a thousand voices
all of them have never been

Dream eternally
playing hide and seek
in the ways of your mind
look at your self - take a peep
down the deep

Dream eternally
playing hide and seek
in the ways of your mind
look at your self - take a peep
down the deep
