

## It won't be that easy

Living in the future  
living in a story  
telling me I  
gotta be myself

Hiding in the shadows  
hiding in the dust and  
showing me the moon  
oh how I groon

It won't be that easy  
we're crawling to the top  
It won't be that pleasy  
I'm telling you to stop

Longing to be free now  
longing to walk away  
playing hide and seek  
inside the sphere

Looking at the stars above  
looking at the darkness  
resting in the couch  
oh how I dream

It won't be that easy  
we're crawling to the top  
It won't be that pleasy  
I'm telling you to stop

We don't know where to go  
we're moving back and forth  
We're stuck inside a show  
I wanna leave for sure

Reaching for the dreams ahead  
reaching for the void in bed  
searching for the words  
to set me free

Listening closely to the bells  
listening to the words they say  
watching the sky  
it's falling down

It won't be that easy  
we're crawling to the top  
It won't be that pleasy  
I'm telling you to stop
