### a) Offshore

We're living like floating islands  
sailing in the night  
we can only wave goodbye  
when will we meet again?

Sailing the sea of loneliness  
never reaching to the shore

We're living on floating islands  
basking on the beach  
we think we can feast together  
this's the best we can reach

Sailing the sea of loneliness  
never reaching to the shore  
Sailing the sea of loneliness  
never reaching to the shore

### b) Searching everywhere

I've been sailing the seven seas  
I have searched the skies  
You were nowhere to be found  
You are sunken in the ground

Searching everywhere  
searching high and low  
I'm starting to fear  
you are nowhere near

searching in a wall of sound  
searching in the silence  
I've been searching in the air  
in the water and the fire

Searching everywhere  
searching high and low  
I'm starting to fear  
you are nowhere near

### c) Shadow of life

Sign of life and sign of love  
it's the sign of shadows in the  
dark

we are sitting safely in our chairs  
and we don't care much

Shadow of life is the shadow of  
death

creeping slowly behind us  
when we are expecting it  
least in our beds at night

Sign of you and sign of me  
it's the sign of two who are  
stuck  
we are sitting safely in our chairs  
when we are watching news

Shadow of life is the shadow of  
death

creeping slowly behind us  
when we are expecting it  
least in our beds at night

### d) Arriving

I can see you, I can touch you  
I can never come near to you  
I can hear you, but I fear you  
I can never understand what you  
do

Arriving safely home  
to my lonely cage  
I'm sitting all alone  
waiting for my wage

The night is soft and dark  
I close my eyes to sleep  
I've lost that vital spark  
trying not to weep

### e) Party of our lives

The music is high  
we will rock you to pieces  
the music is soft  
and you start to get uneasy

We drink and we float  
we will eat till we're bloating  
we dance and we rave  
and we sweat till we're soaking

Party of our lives  
it's a chance to survive  
colored lights will flash  
come join us in the dance

Party of our lives  
it's a chance to survive  
colored lights will flash  
come join us in the dance

f) Floating islands (instrumental)

g) The Devil's game

Outside in the dark  
tensions growing bigger  
we know we should go home  
but we choose the devil's game

Now we're really stuck  
putting all on the stake  
we really should go home  
but we choose the devil's game

h) Offshore (reprise)

We're living like floating islands  
helpless on the sea  
we can only wave goodbye  
when will we meet again?

Sailing the sea of loneliness  
never reaching to the shore  
Sailing the sea of loneliness  
never reaching to the shore

i) Sea of loneliness (instrumental)
