

Flying

I'm flying in and out of a blue dream of light
I'm diving down to see what is going on tonight
You are the one with the golden halo of light
and just like a moth I am flying around

Flying, I am flying over water and the land of green
Diving, I am diving down to see what is going on tonight

I wanna be so close - be a part of your life
I wanna bring you love and devotion every day
You are the spark that runs through my heart and mind
and just like the sun you are shining a light

Shining, You are shining, shine a light on me, chase the dark away
Dreaming, I am dreaming in a world of blue and it seems so true

Flying, I am flying in a dream of blue to get close to you
Waiting, I am waiting so that you can feel I am very real

Flying, I am flying over water and the city lights
Dreaming, I am dreaming in a world of blue and it seems so true, so true
