

Fly like an Angel

When the love is shining
and the summer is dry
you sit in the sunshine
and you're watching the sky

Fly like an Angel
you got to spread your wings
Fly like an Angel
you'll get a new view at things

When the love is over
and no one's asking why
you sit on your doorstep
and you wish you could fly

Fly like an Angel
you got to spread your wings
Fly like an Angel
you'll get a new view at things

Floating in a dream
longing for your love
going cross the sky
glancing from above

Desert dreaming
shadow seeking
nighttime lightning
constellations

When the rain is falling
it's the summers goodbye
you sit behind your window
you wonder how and why

Fly like an Angel
you got to spread your wings
Fly like an Angel
you'll get a new view at things
