

Get a hold on your animal
(Queen of Wands)

The black cat queen is reigning from her throne
wand is in her hand and crown is on her head
the seeds of good and the seeds of bad we have sown
they will all grow in the cosmic flower bed

Get a hold on your animal
now the black cat is on the loose
don't you let it slip away
or misery will come your way

The love is strong, and we are weak when we fake
heaven above, the stars in your eyes will shine
now where can I turn to, when so much is on stake
nightfall will come, and the birds will cease to fly

Get a hold on your animal
now the black cat is on the loose
don't you let it slip away
or misery will come your way

The lion tears away the veil of deceitful ways
how can I please you, how can I leave you on your own
your beauty's shining bright like mountains in the mist
sunflowers blossoms, look into light so faithfully

Get a hold on your animal
now the black cat is on the loose
don't you let it slip away
or misery will come your way

Get a hold on your animal
now the black cat is on the loose
don't you let it slip away
or misery will come your way
