

Goodbye

Goodbye
don't cry
perhaps
we'll meet another time

So long
I'm gone
what's wrong
you may be asking me

You were always like a distant star
you were never near, always too far
you were always avoiding me
you never stopped playing games with me

Farewell
don't tell
yourself
you were right all the time

Adieu
Mon dieu
don't try
to get me back again

You were always like a distant star
you were never near, always too far
you were always avoiding me
you never stopped playing games with me

You were always like a distant star
you were never near, always too far
you were always avoiding me
you never stopped playing games with me

You were always like a distant star
you were never near, always too far
you were always avoiding me
you never stopped playing games with me
