

Heart of Christmas

Snowflakes gently falling,
like the stars from above,
Blanketing the world in
messages of pure love.

In the heart of Christmas,
a time for the love to shine,
In the midst of winter's cold,
we'll find our way to the star

Sleigh bells in the distance,
laughter loud in the air,
spirit of the Christmas,
a joy we all can share.

In the heart of Christmas,
a time for the love to shine,
In the midst of winter's cold,
we'll find our way to the star

Hearts and stars are shining bright,
On this peaceful, holy night.

As we gather, hand in hand,
Together, we'll understand.

All around the table,
family and friends unite,
In the glow of candlelight,
our hearts go on a flight.

In the heart of Christmas,
a time for the love to shine,
In the midst of winter's cold,
we'll find our way to the star
