

Hypnotize

Sit back and relax
as I count backwards to ten
feel your breathing in and out
as you go deeper and deeper into the void

Your thoughts fades to grey
as your body melts away
watch the scenes go flashing by
as you sink into the soft and velvet darkness

I'm gonna hypnotize
I'm gonna mesmerize
I'm gonna make you fly
I wanna take you higher

I'm gonna hypnotize, hypnotize
I'm gonna mesmerize, mesmerize
You're gonna realize, realize
That we belong together

You ride on the waves
of you own subconscious mind
to a place so far away
yet so near; a part of you have always been here

Past lives flashes by
as you reach your destiny
it's a place you call you home
look around and recognize you loving soulmate

I'm gonna hypnotize
I'm gonna mesmerize
I'm gonna make you fly
I wanna take you higher

I'm gonna hypnotize, hypnotize
I'm gonna mesmerize, mesmerize
You're gonna realize, realize
That we belong together
