

I don't like Christmas

I used to love Christmas
I used to love all the lights
but you are such a dumbass
and you told me stupid lies

I don't like Christmas anymore
not ever since you walked out the door
I don't like Christmas anymore
you got me lying flat on the floor

I sit in the twilight
and watch the shows on TV
I try to catch up the mood
I wish you were here to see

I don't like Christmas anymore
not ever since you walked out the door
I don't like Christmas anymore
you got me lying flat on the floor

You smashed the decorations
and tore down the star
you smashed the decorations
I don't know who you think you are

I still keep on dreaming
about all the times we had
your star is still shining
it makes me feel oh so sad

I don't like Christmas anymore
not ever since you walked out the door
I don't like Christmas anymore
you got me lying flat on the floor

I don't like Christmas anymore
not ever since you walked out the door
I don't like Christmas anymore
you got me lying flat on the floor

You smashed the decorations
and tore down the star
you smashed the decorations
I don't know who you think you are

No,
I don't know who you think you are
I said
I don't know who you think you are
